

## Product Data Sheet

### Spray Wand

---

The personal care Spray Wand is a patented technology that allows for personal care products to be applied in hard to reach areas such as back, under arms, sides, behind ones neck, thighs and back of legs

- The arms ratcheted movement allows the user to adjust the arm to their desired position for optimal coverage.
- The incorporated actuator provides the user with a mist atomization for enhanced sensory experience.
- In its folded position the products foot print is not impacted making it seamless for retail placement.
- The Spray Wand comes with a locking mechanism that is child safe and tamper resistant.
