

Product Data Sheet

Tan 10 Dry Oil Tanning Spray

Tan 10 Dry Oil Tanning Spray is a highly effective tan control product designed with consumer and environmentally friendly constituents. This product was designed to mitigate and slow down the tanning process for those that have a higher Melanin level and appropriate skin tone that desire a tan. This allows one to develop a uniform tan with more control while reducing the risk of burning quickly.

Tan 10 Dry Oil Tanning Spray is light weight, film forming and tanning lotion provides water resistance up to 80 minutes and applies and dries clear. This sheer product utilizes a leading edge copolymer that is a film former but is permeable, allowing the skin to breath. Powered by air, this non-flammable propellant Bag on Valve continuous spray product sprays at any angle.

- Light weight quick drying
- Water resistant up to 80 minutes and no-rub application

Tan 10 Dry Oil Tanning Spray contains the following ingredients:

- Homosalate: UV-B Absorber
- Octisalate: UV-B Absorber
- Oxybenzone: UV-B Absorber
- Octinoxate: UV-B Absorber
- Acrylate Copolymer: Breathable Film former
